Emergency telephone	+46 20 996000 – Poisson Information Centre, Sweden
number	

Version No: E-31-0004-02EN

#### 2. HAZARDS IDENTIFICATION

#### 2.1 Classification of the substance or mixture

Product definition: In vitro device kit and research use kit consisting of different reagents.

Reagent B contains radioactive IOD-125.

# Classification according to the Regulation (EC) No. 1272/2008 (CLP)

Reagent A, B, C, D, E, F, G, H and I: Not classified as dangerous.

Reagent B is covered by Council Directive 96/29 Euratom.

#### 2.2 Label elements according to the Regulation (EC) No. 1272/2008 (CLP)

Reagent A, B, C, D, E, F, G, H and I: No labeling required.

#### 2.3 Other hazards

Other hazards which do not result in classification	None
Substance meets the criteria for PBT under Regulation EC No. 1907/2006, appendix XIII	PBT: No (refers to substances containing)
Substance meets the criteria for PBT under Regulation EC No. 1907/2006, appendix XIII	vPvB: No (refers to substances containing)

#### 3. COMPOSITION/INFORMATION ON INGREDIENTS

#### 3.1 Reagents containing following substances classified as dangerous.

No	Product/ingredient name	EC-number	CAS-	REACH	Conc.	Classification
			number	registration	(weight-	Regulation (EC) No. 1272/2008 [CLP]
				number	%)	
Rea	Reagent Anti-serum, 125I-labelled antigen, Double antibody, Diluent, Standard, Standard diluent, Control low, Control high and Assay					
buff	îer					
	Sodium azide	247-852-1	26628-22-8	7220	0,01-0,09	Acute Tox. 2; H300
						Aquatic Acute 1;
						H400
						Aquatic Chronic 1; H410
						EUH032

See section 16 for the full text of the classifications declared above. Occupational exposure limits are mentioned under section 8, if such exist.

# 4. FIRST AID MEASURES

4.1 Description of first aid measures

WI Description of mot a			
Inhalation:	Remove to fresh air, rest. Call a physician if the complaints persist.		
Skin contact:	Remove contaminated clothing and footwear. Wash the skin properly with soap and		
	water.		
Eye contact:	Keep eyelids well apart. Rinse with water for a couple of minutes. Call a physician if		
	the complaints persist.		
Ingestion	Wash mouth properly with water. If victim is conscious and alert, give 2-4 cupfuls of		
	milk/water to dilute the substance in stomach. Call a physician if the complaints persist.		

# 4.2 Most important symptoms and effects, both acute and delayed Potential acute health effects

Inhalation:	Exposure to high airborne concentrations of the reagents in this kit may cause irritation in the respiratory tract, dizziness and sickness.
Skin contact:	Not relevant.
Eye contact:	Not relevant.
Ingestion:	Ingestion of larger amounts may cause sickness and vomiting.

4.3 Indication of any immediate medical attention and special treatment needed

Ingestion:	Treat symptomatically.
Specific treatments:	No specific treatment.

If you suspect exposure to radiation above the applicable dose limits and limit values, contact Office for Nuclear Regulation or your local Health Protection Agency.

#### 5. FIRE-FIGHTING MEASURES

5.1 Extinguishing media

Suitable extinguishing	Dry chemical, foam, water spray or carbon dioxide.
media	
Unsuitable extinguishing	Waterjet
media	

5.2 Special hazards arising from the substance or mixture

TIE SPECIAL REPRIES OF STREET	in our the substance of infature
Hazards from the	None
substance or mixture	
Hazardous thermal	Decomposition products may include the following materials: carbon monoxide,
decomposition products	carbon dioxide and nitrous gases.

5.3 Advice for firefighters

DID THATTEE TOT THE CHISTREETS				
Special protective actions	Promptly isolate the scene by removing all persons from the vicinity of the incident if			
for fire-fighters	there is a fire. No action shall be taken involving any personal risk or without suitable			
	training.			
Special protective	Fire-fighters should wear appropriate protective equipment and self-contained			
equipment for fire-	breathing apparatus (SCBA) with a full face-piece operated in positive pressure			
fighters	mode. Clothing for fire-fighters (including helmets, protective boots and gloves)			
	conforming to European standard EN 469 will provide a basic level of protection			
	for chemical incidents.			
Further information	Not applicable			

# 6. ACCIDENTAL RELEASE MEASURES

6.1 Personal precautions, protective equipment and emergency procedures

For non-emergency	No action shall be taken involving any personal risk or without suitable training.		
personnel	vacuate surrounding areas. Keep unnecessary and unprotected personnel from		
	entering. Do not touch or walk through spilt material. Put on appropriate personal		
	protective equipment.		

For emergency	If specialized clothing is required to deal with the spillage, take note of any	
responders	information in Section 8 on suitable and unsuitable materials. See also Section 8 for	
responders		
	additional information on hygiene measures.	
	Contact Office for Nuclear Regulation for further information on guidelines for	
	safety precautions, protective equipment and safety measures during use of	
	radioactive sources.	

### 6.2 Environmental precautions

Avoid dispersal of spilt material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).

6.3 Methods and materials for containment and cleaning up

	the state of the s		
Small spill	Stop leak if without risk. Move containers from spill area. Dilute with water and mop		
	up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry		
	aterial and place in an appropriate waste disposal container. Dispose of via a		
	licensed waste disposal contractor.		
Large spill	Stop leak if without risk. Move containers from spill area. Prevent entry into sewers,		
	water courses, basements or confined areas. Wash spillages into an effluent		
	treatment plant or proceed as follows. Contain and collect spillage with		
	noncombustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous.		

earth and place in container for disposal according to local regulations. Dispose of via a licensed waste disposal contractor.

Contact Office for Nuclear Regulation for further information on guidelines for containment and cleaning up of radioactive sources.

#### 6.4 Reference to other sections

Reference to other	See Section 8 for information on appropriate personal protective equipment.
	See Section 13 for additional waste treatment information.

# 7. HANDLING AND STORAGE

7.1 Precautions for safe handling

711 1 1 CCM delonis for sufe ma	noing .		
Protective measures	Put on appropriate personal protective equipment (see Section 8).		
	Contact Office for Nuclear Regulation for further information on guidelines for safe		
	handling of radioactive sources.		
Advice on general	Eating, drinking and smoking should be prohibited in areas where this material is		
occupational hygiene	handled, stored and processed. Workers should wash hands and face before eating,		
	drinking and smoking. Remove contaminated clothing and protective equipment		
	before entering eating areas. See also Section 8 for additional information on hygiene		
	measures.		

7.2 Conditions for safe storage, including any incompatibilities

Storage:	Store in original container protected from direct sunlight in a dry, cool and well-
	ventilated area, away from incompatible materials (see section 10), food and drink.
	Keep container tightly closed and sealed until ready for use. Containers that have
	been opened must be carefully resealed and kept upright to prevent leakage.
Further information:	Follow national guidelines for safe storage of radioactive sources. Contact Office for
	Nuclear Regulation for further information on guidelines for safe storage of
	radioactive sources.

# 7.3 Specific end use(s)

Reagents for in vitro diagnostic and research use.

# 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

### 8.1 Control parameters

Occupational exposure limits

8.2 Exposure controls

OIL EMPOSUITE CONTITOIS			
Appropriate engineering	Good general ventilation should be sufficient to control worker exposure to airborne		
controls	contaminants. Otherwise, use local exhaust ventilation or other engineering controls		
	to keep worker exposure below any recommended or statutory limits.		
	Contact Office for Nuclear Regulation for further information on guidelines for		
	personal protective equipment and safe use of radioactive sources.		
Hygiene measures	Wash hands, forearms and face thoroughly after handling chemical products, before		
	eating, smoking and using the lavatory and at the end of the working period.		
	Appropriate techniques should be used to remove potentially contaminated clothing.		
	Wash contaminated clothing before reusing. Ensure that eyewash stations and		
	safety showers are close to the workstation location.		
Respiratory protection	Not relevant during normal condition.		
Eye/face protection	Safety glasses or face shield shall be worn.		
Hand protection	Chemical-resistant, impervious gloves in butyl rubber or nitril rubber complying with		
rana protection	an approved standard shall be worn.		
Body protection	Wear suitable protective clothing.		

Environmental exposure	Not applicable
controls	

# 9. PHYSICAL AND CHEMICAL PROPERTIES

9.1.1 Information on basic physical and chemical properties of the reagents

	Reagent A	Reagent B	Reagent C	Reagent D	Reagent E	Reagent F	Reagent G	Reagent H	Reagent I

#### 9.2 Other information

10.1 Reactivity

Reagent B	Emits gamma radiation with 28-66 KBq	
-----------	--------------------------------------	--

# 10. STABILITY AND REACTIVITY

10.2 Chemical stability	Stabile under normal conditions of use and storage.
10.3 Possibility of	Under normal conditions of storage and use, hazardous reactions will not occur.
hazardous reactions	
10.4 Conditions to avoid	Avoid direct sunlight.

10.5 Incompatible	None
materials	

10.6 Hazardous	Carbon monoxide, carbon dioxide and nitrous gases.
decomposition products	

#### 11. TOXICOLOGICAL INFORMATION

# 11.1 Information on toxicological effects

#### Acute toxicity

Assessment of acute toxicity for the different reagents:

Not harmful if inhaled. Not harmful in contact with skin. Not harmful if swallowed.

Non-reactive

#### Calculated data:

LD50 oral, rat: > 2000 mg/kg LD50 dermal, rat: > 2000 mg/kg

#### Irritation/Corrosion

Assessment of irritating effect for the different reagents

Experimental/calculated data:

Corrosive or irritating to the skin, rabbit: Not irritating. Serious eye damage/eye irritation, rabbit: Not irritating

#### Sensitization by inhalation/skin contact

Assessment of sensibility for the different reagents:

May not cause any sensitizing effects.

#### Germ cell mutagenicity

Assessment of mutagenicity for the different reagents:

The chemical structure of the different reagents don't indicate any mutagenic effects.

#### Carcinogenicity

Assessment of carcinogenicity for the different reagents:

The chemical structure of the different reagents don't indicate any carcinogenic effects.

#### Reproduction toxicity

Assessment of reproduction toxicity for the different reagents:

The chemical structure of the different reagents don't indicate any reproduction toxic effects.

#### **Developmental toxicity**

Assessment of teratogenicity for the different reagents:

The chemical structure of the different reagents don't indicate any teratogenic effects.

#### Specific target organ toxicity (single exposure)

STOT assessment single dos toxicity:

Based on available information an organ specific toxicity is not expected for the different reagents.

#### Repeated dose toxicity and specific organ toxicity (repeated exposure)

Based on available information an organ specific toxicity is not expected for the different reagents.

If allowable dose limits and limit values for radioactive (ionizing) radiation is exceeded, it may cause damage. Contact Office for Nuclear Regulation for further information.

#### 12. ECOLOGICAL INFORMATION

#### 12.1 Toxicity

12.1.1 Acute toxicity in the aquatic environment for sodium azide

Test	Value/unit (mg/l)	Test method	Exp. time (h)	Species
Fish LC50	0.8-1.6	-	96	Rainbow trout
Daphnia EC50	4.2		48	Daphnia pulex
Not readily biodegradab	ole.			<u> </u>

12.1.2 Acute toxicity in the aquatic environment for all reagents (calculated)

Test	Value/unit (mg/l)	Test method	Exp. time (h)	Species
Fish LC50	> 100		96	
Daphnia EC50	> 100		48	Daphnia magna
Algae IC50	> 100		72	Green algae

#### 12.1.3 Ecotoxicity

Reagent A, B, C, D, E, F, G, H and I contains only a low concentration of sodium azide. This concentration is below the lowest concentration limit for classification as harmful to aquatic organisms. Thus, all reagents in the kit are classified as not harmful to aquatic organisms.

#### 12.2 Persistence and degradability

Conclusion/Summary	The reagents will be classified as readily biodegradable.	
--------------------	---	--

#### 12.3 Bioaccumulative potential

	34.000 (A.C.)
Conclusion/Summary	The reagents will not be classified as bioaccumulative.

#### 12.4 Mobility in soil

Soil/water partition	Not available
coefficient (KOC)	
Mobility	Not available

#### 12.5 Results of PBT and vPvB assessment

PBT	Not applicable
vPvB	Not applicable

#### 12.6 Summary - ecological information

Conclusion	The reagents will not be classified as dangerous for the environment.	
	The product contains radioactive Iodine (IOD-125) which emits gamma radiation the	
	has a decay time of approximately 60 days.	

#### 13. DISPOSAL CONSIDERATIONS

# 13.1 Waste treatment methods

#### Product

Method of disposal The generation of waste should be avoided or minimized wherever possil		The generation of waste should be avoided or minimized wherever possible. This
material and its container must be disposed of in a safe way. Dispose of s		material and its container must be disposed of in a safe way. Dispose of surplus and
		non-recyclable products via a licensed waste disposal contractor. Disposal of this
		product, solutions and any by-products should at all times comply with the

	requirements of environmental protection and waste disposal legislation and any regional local authority requirements.  Used kit may be potentially infectious material and shall be disposed as a hazardous waste.  Contact Office for Nuclear Regulation for further information on guidelines for classification, signage and requirements for maximal radioactive activity from waste including safe disposal of radioactive sources.	
Hazardous waste	Within the present knowledge of the supplier, this product is regarded as	
	hazardous waste, as defined by EU Directive 2008/98/EU.	

European Waste Catalogue (EWC)

EWC Waste Code	Type of waste	
18 01 06*	Chemicals consisting of or containing dangerous substances	
15 01 10*	Packaging containing residues of or contaminated by dangerous substances	

**Packaging** 

Method of disposal	Incineration.
Special precautions	None.
