  Yngve Sommarin, PhD, Associate Professor
  R&D Director, Euro Diagnostica

TO LEARN MORE, COME AND VISIT US IN OUR BOOTH #5 IN THE EXHIBITION HALL!

Euro Diagnostica

European leader in autoimmunity testing provides complete diagnostic solutions and offers also
customized coating services. Wieslab Lab Services, an integral part of Euro Diagnostica, offers testing services
for most autoimmune diseases.

During the last two decades, our world class scientists in collaboration with key opinion leaders have been the
first to develop and produce top quality ELISA kits for ANCA, anti-CCP, Chromogranin and Complement assays,
which are now in use all over the world.

Euro Diagnostica combines a long tradition in R&D with a commitment to quality. Euro Diagnostica’s goal is to
constantly develop solutions to aid clinicians in diagnosis, prognosis, monitoring and treatment of autoimmune
and related diseases.
